

SAVE A TREE CREATE A LEGACY

WITH ALLOC LAMINATE FLOORING

Alloc laminate flooring creates a warm environment inside your home without compromising the environment outside. We use sawdust and wood scrapings that would otherwise be discarded to craft our superior-performance flooring. We manufacture responsibly by diverting 100% of our waste from landfills and utilizing it as energy. Our authentic wood looks are achieved through eco-friendly printing processes, and 100% of our aluminum and packaging comes from recycled materials.

A BEAUTIFUL HOME ENVIRONMENT SHOULD NEVER COME AT THE EXPENSE OF OUR OUTDOOR ENVIRONMENT.

CHOOSING ALLOC IS CHOOSING YOUR ENVIRONMENT.
